Dear John L. Szarka, III

Thanks for writing to us about the below permission. We would be pleased to grant you the permission of reusing Fig 1 from article entitled 'On OPtimal Setting of Control Limits for Geometric Chart' from IJRQSE, Vol 7 (1) in your PhD dissertation, provided that full acknowledgment given to the original source with the following format:

Title of the Work, Author (s) and/or Editor(s) Name (s), Title of the Journal, Vol and Issue No., Copyright @ year and owner.

Kind regards

Tu Ning

Good morning,

I just called regarding a permission rights request. I am submitting my dissertation at Virginia Tech in one week and would like to have the permission by that time. Thank you for forwarding this information to the appropriate parties. If any further information is needed, I am readily available to provide it by e-mail.

Thank you.

John L. Szarka, III

Subject: Permission Rights Request

Dear Editor,

I am completing a doctoral dissertation at Virginia Polytechnic Institute and State University entitled "Surveillance of Negative Binomial and Bernoulli Processes." I would like your permission to reprint in my dissertation excerpts from the following:

In this work, the authors examine the properties of the two-sided geometric Shewhart chart and illustrate the issues with using the traditional control limits for this chart. The excerpts to be reproduced in my dissertation is Figure 1 on page 19, which shows the undesirable property that this control chart may have worse performance in detecting an increasing shift in a proportion for a process (out-of-control) than when the process is working properly (in-control).

The requested permission extends to any future revisions and editions of my dissertation, including non-exclusive world rights in all languages, and to the prospective publication of my dissertation by UMI Company. These rights will in no way restrict republication of the material in any other form by you or by others authorized by you. An approval of this letter in writing will also confirm that you own [or your company owns] the copyright to the above-described material.

If these arrangements meet with your approval, please indicate so in an official form that will serve as a License Agreement between John L. Szarka, III and World Scientific Publishing Company. Thank you very much.

Sincerely,

John L. Szarka, III
