Modeling the Transient Effects during the Hot-Pressing of Wood-Based Composites

Balazs G. Zombori

Dissertation submitted to the Faculty of the Virginia Polytechnic Institute and State University in partial fulfillment of the requirements for the degree of

Doctor of Philosophy in Wood Science and Forest Products

Dr. Frederick A. Kamke, Chairman

Dr. J. Daniel Dolan

Dr. Charles E. Frazier

Dr. Elemer M. Lang

Dr. Joseph R. Loferski

Dr. Layne T. Watson

April, 2001 Blacksburg, Virginia

Keywords: Wood-Based Composites, Hot-Compression, Process Modeling
