May 8, 2008

Dear Mr. Schiffbauer,

I am completing a doctoral dissertation at Virginia Polytechnic Institute and State University entitled "Biological mineralization and demineralization of amorphous silica." I would like your permission to print two of your unpublished images.

The images of centric and pinnate diatoms to be used are shown below:

The requested permission extends to any future revisions and editions of my dissertation, including non-exclusive world rights in all languages, and to the prospective publication of my dissertation by UMI Company. These rights will in no way restrict republication of the material in any other form by you or by others authorized by you. Your signing of this letter will also confirm that you own the copyright to the above-described material.

If these arrangements meet with your approval, please sign this letter where indicated below and return it to me in the enclosed return envelope. Thank you very much.

Sincerely,

[Signature]

Adam F. Wallace

PERMISSION GRANTED FOR THE USE REQUESTED ABOVE:
