Of all things, I honor beginnings. I believe that what was has always been, and what is has always been, and what will be has always been. I don’t think the circumstantial play from year to year and era to era means anything, but what has become available to you from time to time as expressive instinct does. The man of old had the same brilliance of mind as we assume we have only now.

Louis Kahn
23.
Fifth floor plan of library.

Library seen from the west wall.

Climbing wall.
Climbing wall.

Image 15. “Your wall is like a rhinoceros.” Juan Holt

View from study carrell overlooking the field with the volleyball courts beyond.

Section showing passage between woods and field. Scale: 1” = 40’-0”

Passage between woods and field.
Library from the top of the hill. Afternoon shadows over the baseball field.

Plateau on top of library with view of the Potomac river in the distance. Early sketch of library.

Afternoon shadows over the baseball field. Library from the top of the hill.
Top floor plan of library.
