Analysis of Time-Varying Characteristics of Simulated Turbulence in Wind Tunnel

Lin Tian

Thesis submitted to the Faculty of the Virginia Polytechnic Institute and State University in partial fulfillment of the requirements for the degree of

Master of Science

in

Engineering Mechanics

Prof. M. R. Hajj, Chairman
Prof. H.W. Tieleman,
Prof. S.A. Ragab,

May 28, 1999

Blacksburg, Virginia

Keywords: small-scale turbulence, orthonormal wavelets, intermittency, wind loads, atmospheric turbulence
