DATE: December 1, 2005

MEMORANDUM

TO: Christopher L. North Computer Science 0106  
Robert Ball

FROM: David Moore 

SUBJECT: **IRB Amendment Approval:** "Efficiency Curves for Embedded Data Sets"  
IRB # 05-616

This memo is regarding the above referenced protocol which was previously granted approval by the IRB on November 11, 2005. You subsequently requested permission to amend your approved protocol to include the addition of the listed changes. Since the requested amendment is nonsubstantive in nature, I, as Chair of the Virginia Tech Institutional Review Board, have granted approval for requested protocol amendment, effective as of December 1, 2005. The anniversary date will remain the same as the original approval date.

Virginia Tech has an approved Federal Wide Assurance (FWA00000572, exp. 7/20/07) on file with OHRP, and its IRB Registration Number is IRB00000667.
