College Student Financial Literacy Survey

Welcome!

Thank you for your participation in the College Student Financial Literacy Survey. If you are at least 18 years old and are an undergraduate or graduate college student, please read the information below about the study before taking the survey.

Information and Consent Form

I invite you to participate in my thesis research about the financial literacy of college students. The purpose of this project is to measure financial literacy and factors influencing financial behavior. There are questions about financial attitudes, financial behaviors, financial knowledge, influences on financial literacy, and demographic information. Please try to answer every question. If there is a question you do not feel comfortable answering, you may skip it.

There are 42 questions in this survey as well as some demographic questions at the end. It will take you about 10-20 minutes to complete the survey. At the end of the survey you will be given the opportunity to enter a drawing for a free iPod. It is my way of thanking you for participating in the survey.

No one but me and my research committee will see answers and you will not be asked to give your name or any information that tells us who you are during the survey. This survey is anonymous for all respondents with no link between your answers and you. Your decision to participate in this research is voluntary. You can stop at any time. You may skip questions you do not want to answer.

There are no risks in participating in this research beyond those experienced in everyday life. Many of the questions involve personal opinion.

You may ask questions about this research by contacting me at bljorge@vt.edu. In addition, you may contact Dr. David Moore, Assistant Vice Provost for Research Compliance at Virginia Tech (540) 231-4991 for questions about your rights as a research participant.

By continuing with the survey and submitting it, it means you have read this form and are consenting to take the survey under the conditions described above.
