Dear Electrochemical Society:

I am completing a master’s thesis at Virginia Polytechnic Institute and State University entitled "The Effect of Catalyst Layer Cracks on the Mechanical Fatigue of Membrane Electrode Assemblies." I would like your permission to reprint in my thesis excerpts from the following:

The excerpts to be reproduced are: Figure 5 which shows the effect of edge protection on the lifetimes of fuel cell membranes and is to be displayed in my thesis as follows:
Figure 6: Comparison of lifetimes of various MEA samples. Reprinted with permission from [8]. Copyright 2008, The Electrochemical Society.

The requested permission extends to any future revisions and editions of my thesis, including non-exclusive world rights in all languages, and to the prospective publication of my thesis by UMI Company. These rights will in no way restrict republication of the material in any other form by you or by others authorized by you. Your signing of this letter will also confirm that your company owns the copyright to the above-described material.

If these arrangements meet with your approval, please sign this letter where indicated below and return it to me in the enclosed return envelope. Thank you very much.

Sincerely,

______________________________

Michael Pestrak
