Mr. Filz-

Thanks for speaking on the phone with me this morning.

To recap our conversation, yesterday I spoke with Mike McGuire, a PhD student at Virginia Tech, and a colleague of yours.

Mike is putting the final touches on his dissertation and is required to get the appropriate permissions for content in the dissertations that came from other published documents.

Mike has requested permission to use a figure from a report you authored under contract with the Commonwealth in his dissertation. To fulfill the requirements for his dissertation on time he noted that he needs this permission granted no later than next Tuesday.

I forwarded his request on to Dr. Amy O’Leary for advice and she advised me that typically the permission would be granted by VDOT’s policy office, but that the person who normally grants permissions is no longer with VDOT.

In the interest of expediency, Amy has advised me that you are authorized to grant permission for this specific use. Ed Hoppe, who was involved in this research as the project manager, concurs.

Permission is extended, however, with these two conditions:

1. The figure used should include all the proper attribution to the original source.

https://mail.google.com/mail/?ui=2&ik=86589f6d4e&view=pt&search=inbox...
2. This permission only applies to Mr. McGuire’s dissertation. It does not extend to any other works, including derivative works such as journal articles, books, or Web sites.

If these terms make sense and you are willing to grant the this specific use please respond to this e-mail.

Thank you.

Ken

Ken,

Thanks for addressing this so quickly. I agree to grant permission for use of the figure as described in your email message.

Best regards,

George

Joel:

In my dissertation I reuse one of your figures (Fig 6.57, page 143). Can you send me an email granting me permission? I need to include the letter when I turn in my ETD on Tuesday.

Hope all is going well for you and your family.

-Mike

Mike,

Feel free to use Fig 6.57 from my dissertation. I can send you the excel file or perhaps a jpeg of the plot if you’d like something with higher resolution.

Things are going well here although I definitely miss Nancy and Hailey. Hope Tish and the girls are doing well.

Joel

Copyright Release for Academic Use of a Paper presented at an IGS Conference

Given to:

Michael P. McGuire, Ph.D., P.E.
Research Associate
Civil and Environmental Engineering
120 E Patton Hall
Virginia Tech
Blacksburg, Virginia 24061

For use of the paper:

Quantitative comparison of theories for geosynthetic reinforcement of column-supported embankments

Presented at:

IGS gives its permission for the paper to be used as an addendum to Mr. McGuire’s graduate dissertation.

Elizabeth J Peggs

IGS Secretary
