Directions for taking the English section of the English-History SOL Success Test: In this part of the test, you will read two passages from an historical novel and one set of directions for doing a tombstone rubbing. Read each passage carefully and answer the questions that follow. The first passage is an excerpt from Red Cap by G. Clifton Wisler.

1. Off and on since leaving home I’d suffered a shudder or two of the loneliness. Now, with Christmas coming and the first snow flurries of winter haunting the mountains, I began to get downright homesick.

2. [Captain Jayroe decided that I needed a furlough.] “Somebody put time in on you son. You’ve had education and manners. Tell them why you signed on. I’ve got a feeling they’ll understand, although I don’t know what madness sends a boy out to freeze himself in these godforsaken mountains. If nothing else, tell them nobody’s put a bullet in your hide yet.

3. “I’m going to share some truth with you, Powell. That devil Lee just slaughtered ten thousand of our men at Fredericksburg. To hear tell, the long lines of blue kept coming up those hills in perfect order for the rebels to cut down. Courage. Glory. Those words hold a hollow tome when you stare at a mountainside of dead friends.

4. “It’ll be hard, the writing,” I told him.

5. “I’ve had to write a few letters that were a whole lot harder,” he said, resting a hand on my shoulder. “Better they should get a friendly one from you first, don’t you suppose?”

6. “Think the rebe’ll get me, Cap?”

Rubbing Up Against History

1. A lot of history can be learned by walking through an old cemetery and studying the markings found on tombstones. Unfortunately, the markings are gradually wearing away and may become illegible. It will be a shame if we can no longer read them because many tell important stories about the lives of people buried beneath them. In Hollywood Cemetery, for example, the history buff can locate the gravesites of Jefferson Davis, J. E. B. Stuart, and over 1,800 other Confederate soldiers. Rather than writing or drawing everything you discover at this historic landmark, you should try doing a rubbing in order to help preserve history. Before you take rubbings from any tombstone, however, be sure to gain permission from the caretaker of the cemetery. Then you are ready to follow these simple directions:

2. Supplies
   - A stiff scrub brush
   - Large sheets of fairly thin paper
   - Masking tape
   - Several jumbo black crayons with their wrappers removed
   - Paper clips
   - A clean cotton cloth or facial tissues
   - A bucket to carry supplies (optional)
   - A frame or tube

3. Step 1: Ask for a diagram of the plots at the cemetery.
   Step 2: Find a tombstone that has interesting carved designs and lettering.
   Step 3: Clean off any dirt on the tombstone with your stiff brush.
   Step 4: Cover the design with a sheet of thin paper. Tape the paper onto the tombstone with masking tape.
   Step 5: Using the side of the crayon, color across the paper with long sweeping strokes. Rub in only one direction. Do not get any crayon marks on the tombstone.
   Step 6: Remove the tape and paper from the surface of the tombstone. Roll the rubbings and secure with two paper clips. Place the rolled rubbing in the bucket.
   Step 7: At home, buff the design using a clean cotton piece of cloth. This will give it a polished shine and prevent large wax deposits from rubbing onto something else.
   Step 8: Mount your rubbing in a frame or roll it in a tube for safekeeping
