APPENDIX E

Science Portfolio by________________________________________________

PORTFOLIO REQUIREMENTS
GSC
96-97

The following should be included in your portfolio each trimester. These items will be used as evidence of the quality of your work and progress made while here at . They will be passed on to next year’s teacher. They may be used to assist you in getting into the college of your choice.

At least two of the following will be selected by your teacher (Option A) and three by the student (Option B) each trimester.

A. Options across curriculum [Teacher directed]
   1. Exemplary laboratory report
   2. Project Forum research paper/ documentation
   3. Reflective narrative [self-evaluation]
   4. Integrative project
   5. Other

B. Options within individual science course [Student directed]
   1. Tests, competency quizzes, or other graded work
   2. Graphs
   3. Spreadsheet of lab data
   4. Pictures of various charts, drawings, or diagrams with written explanation.
   5. Video
   6. Problem set
   7. Field trip report
   9. Projects group or individual
   10. Peer assessment
   11. Other

In addition to the above you are required to summit a summary narrative indicating why you selected each student item. You should also state at least one thing about the course you have enjoyed. The following Rubric will be used to assess your portfolio.
