LIST OF TABLES

Table 1-1. The Network Technology Approach vs. SD Optimization………………..12

Table 3-1. Dynamical Systems Representations of the Production Axioms
(Output Correspondence Perspective)……………………………………….61
Table 3-2. Relationships between System Dynamics Behaviors and the Dynamic
Production Axioms………………………………………………………………68
Table 3-3. Initial Plant Conditions and Operating Characteristics………………….94
Table 3-4. Technical Efficiency Comparison……………………………………..95
Table 3-5. Period-by-Period Input and Cost Projections……………………………96
Table 3-6. Allocative Efficiency Comparisons………………………………………99

Table 4-1. Model Inputs and Initial Conditions……………………………………..121
